EDUCATION

University of North Texas, Denton, Texas, USA Master's in Computer Science	Aug 2025 – Jun 2027 GPA: New
Bharath Institute of Higher Education and Research, Chennai, India Bachelor of Technology in Computer Science Engineering	Aug 2018 – Jun 2022 GPA:9.33/10.0

PROFESSIONAL EXPERIENCE

Tata Consultancy Services, Chennai, India	Aug 2022 – Sep 2025
--	---------------------

Client: Cotality – Machine Learning Operations Engineer (2024-2025)

- Built an **ML-powered document processing tool** to **extract field data** from **PDF images** using Python, NLP, Gemini API, GCP, and Docker, reducing manual effort by **70%**.
- Deployed **scalable microservices** on **GCP Cloud Run**, improving model-serving **speed by 40%**. Integrated LLM-based AI features into client-facing apps and enhanced the **Xtractly Platform** with **improved UI/UX designs**.
- Authored documentation and training materials to strengthen ML quality and team knowledge sharing.
- Recognized with the “**Best Team Member – 2024**” award for outstanding performance and collaboration.

Client: Now Pensions Limited - UK - Data Engineer (2022-2024)

- **Led** large-scale **data migration** from legacy systems to next-gen databases using **Talend ETL**, **migrating millions of records** with zero data loss and improved processing efficiency.
- **Developed and optimized** ETL pipelines and **SQL queries/views** to handle **10M+ records seamlessly**, enhancing system performance and reliability. **Implemented** CI/CD pipelines and **containerized deployments (Docker, Kubernetes)** to streamline build and release processes, **reducing deployment time by 30%**.
- **Collaborated** in quality audits and code reviews to **ensure compliance** with organizational data governance and best practices.
- **Awarded “Best Team Member – 2022”** for exceptional contribution to project delivery.

Tata Consultancy Services, Chennai, India	Software Engineer Intern	Feb 2022 – Jun 2022
--	---------------------------------	---------------------

Client: AVIVA – Full stack & NLP Engineer Intern (2022)

- Worked under TCS Client - Insurance company AVIVA and Developed a Real-Time Video Messaging model for Personalized Customer Experiences, including animation video generation.
- Utilized Natural Language Processing techniques (NLP) to generate Insurance premium details tailored to customer needs.

Ural Federal University, Yekaterinburg, Russia	Data Science Intern	Jun 2019 – Aug 2019
---	----------------------------	---------------------

- Led a project focused on predicting Solar Power Generation for the day ahead, utilizing data collected from a solar power plant in Astrakhan, Russia.
- Awarded a Diploma in Energy Track and achieved 1st place in the project competition.
- Enhanced machine learning model performance using K-Fold cross-validation and fine-tuned model parameters.

TECHNICAL SKILLS

Language	:	JavaScript (ES6+), Python, Java, C++
Frameworks	:	ReactJS, Node.js, Angular , Spring Boot, PyTorch
Back-End APIs	:	RESTful APIs, Node.js (Express), Python (FastAPI/Flask)
Databases	:	MongoDB, PostgreSQL, MySQL
Cloud DevOps	:	Docker, Kubernetes, GCP (App Engine, Cloud Run, Cloud Build CI/CD), AWS basics
AI & LLMs	:	NLP pipelines, OpenAI GPT API integrations, data-driven apps with ML/AI models
Courseworks	:	Data Structures & Algorithms, Analysis of Computer Algorithms, DBMS (Data Base Mang. Sys.)

PROJECTS & RESEARCH WORKS

Full-Stack LLM Integration (Self-Project, 2024–2025)

Tools & Platform: NodeJS, OpenAI-API's & Netlify (Deployed) [[LINK](#)][<https://teja3d.netlify.app/>]

- Created a 3D Theme portfolio highlighting web development skills, featuring animations built with Java Script.
- Built a MERN-based application that integrates OpenAI GPT APIs to generate contextual responses for knowledge management systems. Used Three + Node.js + OpenAI - APIs, deployed via Docker + GCP Cloud Run.

MCP Learning Platform – Interactive web model (Under Development)

- Developed an interactive web module for the Model-Connector Protocol (MCP) Learning Platform, utilizing HTML, CSS, and JavaScript to present complex AI integration concepts through dynamic visuals and intuitive user navigation.
- Demonstrated expertise in front-end design and technical communication by transforming protocol architecture and use-cases into accessible, scalable, and visually engaging educational experiences for developers and enterprises. [[LINK](#)][<https://intro-to-mcp.vercel.app/>]

The Industrial Methods to Improve the Day-Ahead Solar Forecasting

- Developed Industry-Scale Photovoltaic Forecasting System – implemented machine learning-based photovoltaic forecasting system for a large-scale photovoltaic power plant within the Russian power system.
- Enhanced Forecasting Accuracy & Gained Expertise in Machine Learning Algorithms.
- Published a research paper in the Energies Journal with impact factor 5.0, 3500+ Views and 12+ Citations to the Paper. [[LINK](#)][<https://www.mdpi.com/2072-4292/12/20/3420>]

Prediction of Solar Power Generation Based on Random Forest Regressor Model

- Successfully integrated retrospective metering data and open-source weather information to address feature identification and error metrics in the forecasting process.
- Demonstrated practical application by testing the system on a real solar power plant in the southern region of the Russian Federation. [[LINK](#)]

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2023 Certified Application Integration Professional**
- **Machine Learning Course by Andrew Ng – Coursera Stanford | online**
- **How to Win a Data Science Competition: Learn from Top Kagglers – Coursera HSE-National University**
- **Research Paper Presentation Certification at ICAECT 2020 – Springer Journal Conference**

POSITIONS OF RESPONSIBILITY

<u>Student Member, Institute of Electrical and Electronics Engineers (IEEE), Chennai, India</u>	<u>2020 – 2021</u>
<u>Core Organizer, Data Structures & Algorithms Club, BIHER (DSAC), Chennai, India</u>	<u>2021 – 2022</u>

HONORS & AWARDS

- **Won Hackathon and Received Diploma in Ural Federal University**
- **Received Best Project Team Award from Ural Federal University**
- **Received a Grant of Rs 4,00,000 to Publish the Research Paper in Energies Journal.**
