

TEJA P C

[Personal Portfolio](#) | (+1) 9402394143 | <https://www.linkedin.com/in/tejapc> | <https://github.com/PCTEJA/>

EDUCATION

University of North Texas, Denton, Texas, USA

Master's in computer science

Aug 2025 – Jun 2027

GPA: New

Bharath Institute of Higher Education and Research, Chennai, India

Bachelor of Technology in Computer Science Engineering

Aug 2018 – Jun 2022

GPA:9.33/10.0

TECHNICAL SKILLS

Language	:	JavaScript (ES6+), TypeScript, Python , Java , C++, R
Frameworks	:	ReactJS , Node.js , ExpressJS , Angular, Spring Boot, PyTorch, TensorFlow
Front-End Dev	:	HTML5, CSS3, Bootstrap, jQuery
Back-End APIs	:	RESTful APIs, GraphQL (basic exposure), Node.js (Express), Python (FastAPI/Flask)
Databases	:	MongoDB, PostgreSQL, MySQL, Oracle
Cloud DevOps	:	Docker, Kubernetes, GCP (App Engine, Cloud Run, Cloud Build CI/CD), AWS basics
AI & LLMs	:	NLP pipelines , OpenAI GPT API integrations , data-driven apps with ML/AI models
Tools	:	Git/GitHub, JIRA, IntelliJ, VS Code, PyCharm, Jupyter, Netlify, Firebase

PROFESSIONAL EXPERIENCE

Tata Consultancy Services, Chennai, India

Aug 2022 – Present

Client: Cotality – **GenAI & DevOps Engineer (2024-2025)**

- Developed end-to-end ML pipelines integrating NLP models with scalable APIs and cloud deployment (Python + GCP + Docker). Designed and implemented microservices with GCP Cloud Run to serve ML model outputs seamlessly.
- Collaborated with cross-functional teams to integrate AI/ML features into client-facing apps – gained exposure to LLM APIs for content generation. Updated TCS Internal Xtractly Platform with better UI/UX designs.
- I have Contributed to the development of documentation and training materials to promote quality awareness and knowledge sharing within the team.
- Received “**Best Team Member**” award for the year 2024

Client: Now Pensions Limited - UK - **Data Engineer (2022-2023)**

- Worked for UK's Largest Pension Company, dealing with Millions of records, the company wanted to migrate the data from legacy systems and I have played a key role in migrating the data.
- Hands-on experience with CI/CD pipelines, containerization (Docker/K8s), and DevOps practices.Experience in Talend Development, Built Optimized ETL Jobs and SQL Queries. Developed optimized SQL view queries that handle more than **10 million** records seamlessly. Participated in regular quality audits and reviews to ensure adherence to best practices and compliance with data quality standards.
- Received “**Best Team Member**” award for the year 2022

Tata Consultancy Services, Chennai, India

Software Engineer Intern

Feb 2022 – Jun 2022

Client: AVIVA – **Full stack & NLP Engineer Intern (2022)**

- Worked under TCS Client - Insurance company AVIVA and Developed a Real-Time Video Messaging model for Personalized Customer Experiences, including animation video generation.
- Utilized Natural Language Processing techniques (NLP) to generate Insurance premium details tailored to customer needs.

Ural Federal University, Yekaterinburg, Russia

Data Science Intern

Jun 2019 – Aug 2019

Researcher

- Led a project focused on predicting Solar Power Generation for the day ahead, utilizing data collected from a solar power plant in Astrakhan, Russia.
- Awarded a Diploma in Energy Track and achieved 1st place in the project competition.
- Enhanced machine learning model performance using K-Fold cross-validation and fine-tuned model parameters.

PROJECTS & RESEARCH WORKS

Full-Stack LLM Integration (Self-Project, 2024–2025)

Tools & Platform: NodeJS, OpenAI-API's & Netlify (Deployed) [\[LINK\]](#)

- Created an impressive portfolio highlighting web development skills, featuring animations built with Java Script.
- Built a MERN-based application that integrates OpenAI GPT APIs to generate contextual responses for knowledge management systems. Used Three + Node.js + OpenAI - APIs, deployed via Docker + GCP Cloud Run.

MCP Learning Platform – Interactive web model (Under Development)

- Developed an interactive web module for the Model-Connector Protocol (MCP) Learning Platform, utilizing HTML, CSS, and JavaScript to present complex AI integration concepts through dynamic visuals and intuitive user navigation.
- Demonstrated expertise in front-end design and technical communication by transforming protocol architecture and use-cases into accessible, scalable, and visually engaging educational experiences for developers and enterprises. [\[LINK\]](#)

The Industrial Methods to Improve the Day-Ahead Solar Forecasting

- Developed Industry-Scale Photovoltaic Forecasting System – implemented machine learning-based photovoltaic forecasting system for a large-scale photovoltaic power plant within the Russian power system.
- Enhanced Forecasting Accuracy & Gained Expertise in Machine Learning Algorithms.
- Published a research paper in the Energies Journal with impact factor 5.0, 3000 Views and 10 Citations to the Paper. [\[LINK\]](#)

Predicting the Outcome of Supreme Court of India Appeal Cases Using HCNN

- Automated web scraping to collect data from original supreme court case transcripts, covering 70 years of judgment details.
- Expertly handled raw data and conducted essential data pre-processing. Employed TensorFlow neural networks for model development and harnessed Gensim modules for Word2Vec, SkipGram, and CBOW models.
- Published a significant paper in a Springer conference. [\[LINK\]](#)

Prediction of Solar Power Generation Based on Random Forest Regressor Model

- Successfully integrated retrospective metering data and open-source weather information to address feature identification and error metrics in the forecasting process.
- Demonstrated practical application by testing the system on a real solar power plant in the southern region of the Russian Federation. [\[LINK\]](#)

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2023 Certified Application Integration Professional**
- **Machine Learning Course by Andrew Ng – Coursera Stanford | online**
- **How to Win a Data Science Competition: Learn from Top Kagglers – Coursera HSE-National University**
- **Research Paper Presentation Certification at ICAECT 2020 – Springer Journal Conference**

POSITIONS OF RESPONSIBILITY

<u>Student Member, Institute of Electrical and Electronics Engineers (IEEE), Chennai, India</u>	2020 – 2021
<u>Core Organizer, Data Structures & Algorithms Club, BIHER (DSAC), Chennai, India</u>	2021 – 2022

HONORS & AWARDS

- **Won Hackathon and Received Diploma in Ural Federal University**
- **Received Best Project Team Award from Ural Federal University**
- **Received a Grant of Rs 4,00,000 to Publish the Research Paper in Energies Journal.**
